

All, Stalker

I know what time you will arrive
'Cause I've been waiting for you every night
I know you can't see me
My heart skips a beat
I hear footsteps down the hall
I've been waiting right behind your door
No one will hear
Don't you worry my dear
It's your eyes, your smile
It's your hair, your face
It's your life
I cut the cord on your phone
I've been secretly walking you home
I know you can't see me
My heart skips a beat
Under your bed is my secret place
At night I keep the hair out of your face
No one will hear
Don't you worry my dear
It's your eyes, your smile
It's your hair, your face
It's your life
