

All The Day Holiday, 2000 Winters

it seems like years and years
since you've been here oh my dear
i'm falling apart and i'm losing heart every day i'm without you
from the very start i wanted to know more of you
i'll take you wherever you want to go
i'll see you through the night
you are here so come in
i want you to be so close my dear
cause i love you so
do you really know
i could never pretend, oh no
you've always been so much more than a friend
i would see you face to face
but i feel you all around this place
you put smiles on faces
sweet smell in the air
and make everyone wanna dance
and jump in the air
you put smiles on faces
sweet smell in the air
you make everyone wanna dance
i'll take you wherever you want to go
i'll see you through the night
you are here so come in
i want you to be so close my dear
i'll take you wherever you want to go
i'll see you through the night
you are here so come in
i want you to be so close my dear
cause i love you so
do you really know
i could never pretend, oh no
you've always been so much more than a friend
