

All, This World

All

Pummel

This World

(LYRICS AND MUSIC !) 2:16

Don't think I can last too long in this world

Don't feel like I belong in this world

Stranded alone on this alien beach

Everything is beyond my reach

Don't think I can make my peace with this world

Don't think I can last too long in this world

Don't feel like I belong in this world

Stranded alone on this alien beach

Everything is beyond my reach

Don't think I can make my peace with this world

Don't think I can take a part in this world

Ain't got the guts, ain't got the heart for this world

All my promises and plans

Run like water through my hands

Don't think I can meet the demands

Of this world

Liar, lover, loser, saint

All I am, all I ain't

It's too much to take

But not so much to lose

Don't feel like I can live in this world

There's one alternative to this world

Solo shotgun serenade

Disconnect the plans I've laid

There's no way, I have no faith in this world
