

# All Time Low, Monsters (feat. Demi Lovato and blackbear)

Why do all the monsters come out at night?  
Why do we sleep where we want to hide?  
Why do I run back to you liek  
I don't mind if you fuck up my life?

Another day  
Another headache  
In tis hangover hotel  
Getting used to tthe rythym  
I know this beat too well  
Tunel vision's got me feeling like you're the only one i see  
But i know what's missing when i am swimming  
On my lonely luxury\*
