

All Time Low, We Say Summer

I have seen millions of faces,
ever-unchanging; content with redundancy,
I'm not the same way;
searching for change in directions that I want to go.

Take a breath, let it out slow,
Seasons change with the break of a lifetime,
Remind me again why we thought twice about it,
We've got ambition like you've got restraint so,

Smile like you don't give a damn about the consequence,
just say anything,
We say summer holds such wonderful things.

This must be more than just built up suspense,
In the wake of an accident.
Twist and turn in my sleep,
wake me up when we get there;
Destination success.

Run like hell - We make noise for the sake of escaping.
Run like hell - You only live once now take this to heart.
Tell my family and friends I'll be ok.

Smile like you don't give a damn about the consequence /
just say anything / We say summer holds such wonderful things:
