

# All Together Seperate, Face to Face

All Together Seperate  
All Together Seperate  
Face to Face  
It seems I came to life  
when I heard You whisper  
You said the words I love you  
Every time I think about Your grace it's clearer  
You are the one I've been searching for  
to complete me

Chorus:  
When I draw near  
You always meet me  
Longing just to be together again  
With every passing day  
The shadows in my life fade away  
The more I see You face to face

Tell me all Your stories  
from a thousand places  
Of how You made it through  
When I hear Your voice  
my eyes are filled with wonder  
I forget the trials and the  
thorns I find around my feet, yeah

Someday  
My dreams will soon be reality  
Someday  
My dreams will soon be reality

It seems I came to life  
when I heard You whisper  
You said the words I love you
