All Together Seperate

Unusual

I Won't Slow Down

Chorus:

I wont slow down, aint gonna let nobody turn me round  
I wont back down, Ill fight face to face to my last breath,  
but I wont slow down

Day after day, temptation comes around my way  
Week after week, its almost like shes speaking  
Nobodys watching, youre only human  
Well she gives a little, but she takes a lot and I just bought the lie  
Why do I do the things I dont want to  
And go against what I know to be true  
Forgive me now like only You can do and Ill run to Youand I

Chorus

Week after week, Im listening to the words You speak  
Day after day, its almost like her singing  
I know Youre watching, so who am I fooling  
Im just a little, but You give a lot, so I keep wondering why  
Why do I do the things I dont want to  
And go against what I know to be true  
Lord, forgive me now like only You can do and Ill run to Youand I

Chorus

I wont slow down  
Ill keep on running  
Running right into Your open arms  
Cause I can see You here
