

# Alle Farben, Bad Ideas

Lied to my face  
I'm losing track of every tongue that I taste  
It's like the whole World is upside down  
Can't even tell if this is real right now

Heads in the sky  
We're gonna fly around with flames in our eyes  
Just gonna laugh about it all night long  
Somebody's gonna have to carry me home

Bad ideas make the best memories  
Even if you don't remember  
Don't remember, don't remember,  
Bad ideas make the best memories  
Even if you don't remember  
Don't remember, don't remember

[?] coming up  
Can't even think about it  
Dreams in a cup  
Just wanna dance about it  
Lose our minds  
Just wanna dance about it  
Lose our minds

Lied to my face  
I'm losing track of every tongue that I taste  
Just wanna laugh about it all night long  
Somebody's gonna have to carry me home  
Bad ideas make the best memories  
Even if you don't remember  
Don't remember, don't remember,  
Bad ideas make the best memories  
Even if you don't remember  
Don't remember, don't remember
