Allegiance  
Miscellaneous  
One Step Beyond

Nothing is worth than what you now feel  
And your sure you can't be healed  
Your thoughts they conjure a new way out  
To free your life of this self doubt  
You are weak yet also strong  
But what rational order do your thoughts belong  
Can you save yourself this fall  
Can conscience over ride yourself to stand tall  
One step beyond - this is a place you seek  
One step beyond - you cannot see  
One step beyond - this fatal lie  
One step beyond - would it matter if you die  
Separated from the life you desire  
Your head is spinning, pain burns like fire  
It is almost too much to bare  
Losing a grip on what isn't there  
As you commence to your final decent  
Was giving up the fight always your intent  
I pity you because your so small  
No courage inside of yourself at all  
One step beyond - this is a place you seek  
One step beyond - you cannot see  
One step beyond - this fatal lie  
One step beyond - would it matter if you die  
Riot Squad to control conflicting opinion  
Rebellious retaliation - forced to listen  
Fight to be free but hope to some degree  
People will take what they've been given
