

Allele, Lost In Your Words

I get lost in your telephone
I get lost in your radio, I do
I get lost in the way you call me home
Call me home
I get lost in your
And I know youre the only one, I do
I get lost in your words
Can you find a place where Im whole again?
Now Im lost in your words, can you find a place
And not pretend
I get lost on your pedestal
Theres so much in the world Id want to do
With you cause you have It all
And I know, its not for sure
I get lost in your words
Can you find a place where Im whole again?
Whole again!
I get lost in your words
Can you find a place where Im whole again? [x4]
I know you feel the way I do [x4]
