

# Allele, Misunderstood

It seems that I  
Don't know a thing about you  
So now I know  
What you came here for  
Holding in  
I've been waiting for something real  
Now every time I think that I've been  
Misunderstood  
The stones  
That you throw  
They'll never reach the bottom  
So now I know what you came here for  
Holding in  
I've been waiting for something real  
Now every time I think that I've been  
Misunderstood  
It's like you, a cancer  
It seeds down inside everything [x2]  
Holding in  
I've been waiting for something real  
Now every time I think that I've been  
Misunderstood
