

Allie Moss, Way With Words

You have such a way with words
They jump out from the page to pierce my mind
And I hold them there
And repeat them to myself
Memorize them start to end til they are mine
And I know them well
You have such a way with words
You have such a way with words
Whispered in my ear they sting my heart
And I hide them there
Hum them to a melody
Hoping that as I sing I do my part
To make them more alive
You have such a way with words
You have such a way with words
No one can say it better than you do
So I don't try to
I just hide them in my heart
Knowing the change they bring to me is from
The inside out
You have such a way with words
