

Allie Moss, You

You have seen me at my best, worst
When I have news to share you're the first one I call
You can always make me laugh when I'm mad
You push me to do things I am afraid of and I'm glad
I cannot remember
Before we were together
I cannot imagine
Living without you
You have taught me to have a thicker skin
And how to drive stick shift, how to give freely and love my body
I cannot remember
Before we were together
I cannot imagine
Living without you, you, you...
