

# Allister, A Study In Economics

Chalk it up to the public's request for a style that they just don't understand  
Chalk it up to the difference between the industries supply and demand  
Say please with the stab of a knife to the heart of what you've always believed  
Well I'll pull that bloody knife back out and wave it at the pessimism in me

Say goodbye to all the preconceptions that you had  
Say goodbye to everything you know  
Take the time and draw the line to what you have and what you think you'll find  
Cause I know  
Let's hear it for lack of origination  
It's all the same thing if you look at it right  
I can tell you without any hesitation  
That this will not survive

So what's the catch what's the trick to the trade  
Is it luck or is it all just a game  
What's the rule for the pile of charades  
Is it all about what's in a name  
Say please with the stab of a knife to the heart of what you've always believed  
Well I pull that f\*\*king knife back out and wave it at the pessimism in me

Say goodbye to all the preconceptions that you had  
Say goodbye to everything you've known  
Take the time and draw the line to what you have and what you think you'll find  
Cause I know  
Let's hear it for lack of origination  
It's all the same thing if you look at it right  
I can tell you without any hesitation  
That this will not survive

Three cheers for the loser generation  
It's all the same thing if you look at it right  
I can tell you without any hesitation  
That this will not survive  
Tonight

Let's hear it for lack of origination  
It's all the same thing if you look at it right  
I can tell you without any hesitation  
That this will not survive

Three cheers for the loser generation  
It's all the same thing if you look at it right  
I can tell you without any hesitation  
That this will not survive  
No this will not survive  
So kiss it all  
Goodnight  
Kiss it goodnight  
Kiss it goodnight  
Kiss it goodnight
