

Allister, Miz

never cared if I was acting dumb
never made me want to hide and run
always took the time to ask what's wrong
never made fun of my favorite song

now i gotta be the one to leave
guess it's better but I still don't see
ain't it funny how it never turns out right

but I would never cry for my freshman girl

now she's crazier than John DuPont
drinking alcohol and smoking pot
wants to know if it was day or night
that's why i asked her if she feels alright

now i gotta be the one to leave
guess it's better but I still don't see
ain't it funny how it never turns out right

but I would never cry for my freshman girl

never cared if I was acting dumb
never made me want to hide and run
never took the time to ask what's wrong
never made fun of my favorite song

now i gotta be the one to leave
guess it's better but I still don't see
ain't it funny how it never turns out right

but I would never cry for my freshman girl
