Can't Get Over You

I've heard it said before,
That you don't care no more,
You just pick up tracks,
And don't look back,
And walk right out that door.

I tell my friends it's easy,
She's never on my mind.....
My life is so much better
Since that day i said good-bye

And i' tell myself i'm free
But i'm only foolin' me
Cause no matter what i do...
I can't get over you

Well i tried to hide my pain,
With a taste of fast lane,
But ain't no use...□to shake you loose...
I still feel the same
I thought i could forget you
But that was just a lie,
I'm just not the same without you...
I don't even want to try....

And i' tell myself i'm free
But i'm only foolin' me
Cause no matter what i do...
I can't get over you
I can't get over you

Solo:

Bridge:
I don't know how it started
I don't know where i stand
I just want to be back in your arms once again

And i' tell myself i'm free
But i'm only foolin' me
Cause no matter what i do...
I can't get over you
I can't get over you
I can't get over you
