

# Allstars, Rock This House

Every, every  
Every, everybody  
(x2)

Tonight's the night we're breaking out  
and starting up the mix.

If the day has got you down  
then come and get your fix.

Worries will just fade away  
as you feel the beat.

Just let the bassline grab your soul  
and move you to your feet.

Bridge

The needle's in the groove  
and we're getting in the mood.

It's time to make your move  
so come on baby,

Chorus

Everbody rock this house tonight

Let the music take you high

We're gonna funk it up all night  
all night, all night

So now the party's in the swing  
and everybody's fine.

If you don't shake your pretty thing  
we'll leave you way behind.

So come with us and be someone  
hanging with the best.

By the time this tune is done  
we'll be wrapping up the rest.

Repeat bridge and chorus

Ev-ry-body dance, everybody dance

Ev-ry-body dance, everybody dance

C'mon now,

Ev-ry-body dance, everybody dance  
everybody dance.

Every, every

Every, everybody

(x2)

Repeat Chorus till end
