

# ALMA, Far Faraway

You see  
That nobody else sees in me  
Tell me baby  
Would you rather close your eyes  
Cause that's alright

I know  
It's hard to be dealing with my soul  
It's broken and bruised  
What do we do?  
What do we do?

So take me  
Somewhere far away from here  
Fix me up baby  
Sew y brain up  
And i don't wanna know what you find  
And i don't wanna know what you find

You know  
Me inside and out, boy  
I've shown you  
The deepest parts of my mund  
My mind

I know it's hard  
But baby with you'll be fine  
I knwo i'll be fine

So take me  
Somewhere far away from here  
Fix me up baby  
Sew y brain up  
And i don't wanna know what you find  
And i don't wanna know what you find
