

ALMA, Lonely Night

the city's on fire
and girls gettin' hotter
I'm faded on liquor
you all I can picture
don't leave when I am with you
but can't be without you
waitin'
I waitin
I keep on waitin'

my baby gon' drive me crazy
baby gon' drive me insane
cause she can
my baby don't call out my name
baby' don't care about me
cause she can

oh what a lonely night
what a lonely night
she said: I love you!
oh what a lonely night
what a lonely night
she said: I love you! I love you, but not the way you do

I made the decision
to keep my heart hidden
but my lips were slipping'
I told you everything
you blame me
don't marry, never said you were sorry
you broke me to pieces
broke me to pieces

my baby gon' drive me crazy
baby gon' drive me insane
cause she can
my baby don't call out my name
baby' don't care about me
cause she can

oh what a lonely night
what a lonely night
she said: I love you!
oh what a lonely night
what a lonely night
she said: I love you! I love you, but not the way you do

she said: I love you!
oh what a lonely night
what a lonely night

when the night came to an end
you called me your best friend
you said it was lovely
but you never loved me

oh what a lonely night
what a lonely night
she said: I love you!
oh what a lonely night
what a lonely night
she said: I love you! I love you, but not the way you do
