

Aloha From Hell, How Come You're The One

Im not in love with you
I told myself a thousand times
Nothing to save or lose
Still cant get you of my mind
Why cant I break away?
I get lonely when you look at me
Stuck in the middle where nothing is real
We were over before we began
So if youre not the one
How come I get lonely when youre not around?
Im in trouble when you hold me now
With or without you I feel alone
So if youre not the one
How come youre the one?
How come youre the one?
This ship is going down
But Im still holding on
Guess I should know by now
You could do anything
Im too far gone
Why cant I break away?
I get lonely when you look at me
Stuck in the middle where nothing is real
We were over before we began
So if youre not the one
How come I get lonely when youre not around?
Im in trouble when you hold me now
With or without you I feel alone
So if youre not the one
How come youre the one?
How come youre the one?
The faster I run from you
The closer I get to you
Were lost in a million ways
But it still feels like home
I get lonely when you look at me
Stuck in the middle where nothing is real
We were over before we began
So if youre not the one
How come I get lonely when youre not around? (The one, the one, the one, the one)
Im in trouble when you hold me now (The one, the one, the one, the one)
With or without you I feel alone (The one, the one, the one, the one)
So if youre not the one (The one, the one, the one, the one)
How come youre the one? (The one, the one, the one, the one)
How come youre the one? (The one, the one, the one, the one)
How come youre the one? (The one, the one, the one, the one)
How come youre the one? (The one, the one, the one, the one)
How come youre the one? (The one, the one, the one, the one)
