

Aloha From Hell, I' ll Smash Your Mind

Deep inside you need to see
That you are everything to me
You look for answers, take your time
Your game has made you mine
Every risk was yours to take
But little boys are made to break
You make the rules and then you change
You wrote the book and I turn the page
Ill smash your mind
Smash it every time
Ill smash your mind
The game you played was mine
My lipstick traces on your face
You thought youd get to second base
Theres nothing more for me to say
Do you still, still wanna play?
Ill smash your mind
Smash it every time
Ill smash your mind
The game you played was mine
Ill smash your mind
Smash it every time
Ill smash your mind
The game you played was mine
Open your eyes
Cruel intentions rule my mind
Theres just one thing you should know
Before you go
Ill smash your mind
Smash it every time
Ill smash your mind
The game you played was mine
Ill smash your mind
Smash it every time
Ill smash your mind
The game you played was mine
Was mine
Was mine
Was mine
Was mine
Was mine
Was mine
