

# Aloha From Hell, My Love You Are

Let people talk, they dont get it all  
They dont know how you make me feel  
Im falling into love so real  
Its sweet like honey on my fingertips  
Its on my lips  
And its not secret anymore  
Youre here and nothings like before  
Dont ever wanna let you go  
My love you are  
My love you are  
My love you are  
You make me fall so hard  
My love you are  
My love you are  
It only matters how we feel  
My heart is open there is no fear  
And Im not scared to lose you  
Let people talk they dont get it at all  
Our love will stand the test of time  
No matter what they say, youre mine  
I stand by every word youll see  
Thats me  
My love you are  
My love you are  
My love you are  
You make me fall so hard  
My love you are  
My love you are  
My love you are  
My love you are  
My love you are  
My love you are  
My love you are  
My love you are  
My love you are  
You make me fall so hard  
My love you are  
My love you are  
My love you are  
My love you are  
You make me fall so hard  
My love you are  
My love you are  
My love you are  
My love you are  
My love you are
