

Aloha From Hell, So What's Going On

I wanna go out to my life
They dont let me go
Im getting the same old feelings
They wont let me grow
Im not that ordinary girl
Straight for my dreams
Not listening to everybodys words
Straight like it seems
You always make my life complicated
Who do you think who you are?
So whats going on
Dont take me wrong
Im sick and tired of being the little girl
Im grown and finally strong
So whats going
Dont take me wrong
Im sick and tired of being the little girl
Back off! This is my song
You always checking closely
My daily routines
And every little breath I take
Is overstated
Some people are complaining
On my wicked style
Im everything but not a
Little dumb smile
You always make my life complicated
Who do you think who you are?
So whats going on
Dont take me wrong
Im sick and tired of being the little girl
Im grown and finally strong
So whats going
Dont take me wrong
Im sick and tired of being the little girl
Back off! This is my song
Trust in my own decisions
Making my own mistakes
But never ever will forget
Where I belong
So whats going on
Dont take me wrong
Im sick and tired of being the little girl
Im grown and finally strong
So whats going
Dont take me wrong
Im sick and tired of being the little girl
Back off! This is my song
So whats going on (Whats going on)
So whats going on (Whats going on)
So whats going on (Whats going on)
Dont take me wrong (Dont take me wrong)
Im sick and tired of being the little girl
Back off! This is my song
Cause this my song
