

Alok, last night i dreamt i fell in love - feat. Kylie M

I woke up with a crush
We never got to touch
One night was not enough

Went tripping in a dream
You there in front of me
Like LOVE love

It felt so real
And I could feel
That emotion, that emotion
Taking over me

The night was ours
Was seeing stars

Last night I dreamt I fell in love
Last night I dreamt I fell in love
Last night I dreamt I fell in love

It's heaven in your arms
Hit snooze on the alarm
And take me back to sleep

Just think of all the ways
That psychedelic haze
That's where I wanna be

It felt so real
And I could feel
That emotion, that emotion
Taking over me

The night was ours
Keep seeing stars
Last night I dreamt I fell in love
Last night I dreamt I fell in love
Last night I dreamt I fell in love

Come to me, fever dream
Higher than I've ever been
One more night, we can try
Let's keep the dream alive
Close your eyes, meet me there
We're dancing in the air
Never stop, seeing us
Last night I dreamt I fell in love

La la la la la
La la la la la
La la la la la
La la la la la

Last night I dreamt I fell in love
