

# Alphabeat, Go Go

My feet keep taking me to your street  
Cus there's a chance I'll meet you  
That's what I want to do  
I keep looking for a chance  
A chance to steal a glance of you  
That's that I want to do  
Come on please take my hand  
I need somebody to understand  
I need somebody to show the way to go, go  
I can't stand up  
I can't get down, down  
Get down, get down  
Go, go  
I can't stand up  
I can't get down, down  
Get down, get down  
Go  
Unless I'm making a mistake  
We've got some loving to make  
That's what I want to do  
My feet keep taking me to you street  
Cus there's a chance I'll meet you  
That's what I want to do  
Come on please take my hand  
I need somebody to understand  
I need somebody to show the way to go, go  
I can't stand up  
I can't get down, down  
Get down, get down  
Go, go  
I can't stand up  
I can't get down, down  
Get down, get down  
Go  
When you come around  
I fall to the floor  
Hammer on the door  
A million times or more  
When you come around  
(What do you do?)  
I hammer on the door  
A million times or more  
When you come around  
(What do you do?)  
I hammer on the door  
A million times or more  
I can't stand up  
I can't get down, down  
Get down, get down  
Go, go  
I can't stand up  
I can't get down, down  
Get down, get down  
Go
