

# Alphaville, Whales

theye singing songs like us  
why don we communicate  
their lifestyle is floating  
remember, theye like us  
theye coming from afar  
remember, theye astral  
what is wrong with their orientation  
where is the error??  
what do we know of their orientation

tell me why do whales run ashore??

wee living like islands  
no neighbours to talk or play with  
the ocean is endless  
there liquid forever  
our race is so lonely  
wee stranded, they landed, tell me..

what is wrong with our orientation  
where is the error??  
what do we know of our orientation..

wee stranded, they landed..  
we need someone to talk to!!!
