

# Altar, Nothing Human

Alone - and my darkness is cold  
Pain from beyond, it changing my body  
I'm screaming, in pain and wrath  
When it twisting my bones, to unrecognizing  
An etrnal lust, my feelings are  
Taste for blood, I have to kill  
I feel I'm turning to something unhuman  
"Find the edible, feed the fire"  
Feed - I need to have  
I'm burning, from deep below  
Now when I'm immortal, I can't be hurt  
So I drink the blood, from the dead  
Feel me - nothing human  
I'm nothing human, an empty shell  
The new generation of mankind  
I am the beast, that appears in dreams but I'm true  
So feed my fire  
Feed, I need to have  
I'm burning, from deep below  
Now when I'm immortal, I can't be hurt  
So I drink the blood, from the dead  
Feel me I'm nothing human
