

# Altar, Route 666

Please step in, let's take a ride  
Don't hesitate cause we're out of time  
Get in my black tank, don't fear my mood  
I'm a well known guy in this neighbourhood  
Not a minute on this road  
They stalk behind my back  
But grandpa doesn't see  
That he's in front of me  
Now let me drive fast  
I want to be free  
But there is the radar  
That takes my money  
Welcome on route six six six  
Let's hate each other and have some fun  
Welcome to this fucked up world  
The road movie that has just begun
