

# Altar, Spikes and Pain

Why don't you follow me  
Up on this hill  
See if you know  
This thing I see.....Called pain  
You've heard this shit before  
The risk is up to you  
You've seen this man before  
He'll break the bones in you  
I'm screaming, You're begging  
Start crying and gasping  
You realize this the last time  
You can play the act  
Scares the shit out of you,  
Cause you are close to your death  
Pain - More intense than you think - Pain  
Pain - You will never last - The Pain  
Pain - Hear the hammering - Pain  
Pain - The iron in your flesh - Means Pain  
I'm screaming, You're begging  
Start crying and gasping  
This time your daddy won't be here  
To save this situation  
In all those years he has lost  
Faith in his son  
Your life is one big mess  
The test is up to you  
It seems the world cares less  
They lost their faith in you  
Don't you listen to me  
I'm your biggest mistake  
Betray yourself and me  
Judas is my name
