

# Alter Bridge, This Is War

A brood of vipers, they are scheming as the West winds blow  
They are conspiring from below  
A raging fire from the depths of hell, a wicked foe  
Unleash the tiger, take control

It's time to decide  
Do not play the fool

So fight for your life, can't you see what's coming?  
Fight for your mind, this is war  
Fight from inside and believe in something  
Don't compromise who you are

An army of shadows, they are waiting for the battle call  
Bloodthirsty demons of the mind  
They will unravel, if you let them, everything you are  
And storm the castle from inside

So open your eyes

So fight for your life, can't you see what's coming?  
Fight for your mind, this is war  
Fight from inside and believe in something  
Don't compromise who you are

Scheming, haunting, waiting, taunting  
Taking every good man down

A raging fire from the depths of hell, a wicked foe  
Unleash the tiger, take control

And fight for your life, can't you see what's coming?  
Fight for your mind, this is war  
Fight from inside and believe in something  
Don't compromise who you are
