

# Altered, John's Lament

I remember summers when we played  
Promises we made  
O how that time fades  
Summers go with bitter tears I cry  
Looking to the sun God, wondering why  
You had to go away, go away  
I wish that I could be there  
I wish that I could be there  
You were there with all your pretty prayers  
Solace in your care  
But who said life is fair  
I want you to feel the way I do  
Cause I can be like you  
I wanna be with you, be with you  
I wish that I could be there  
I wish that I could be there  
Oh ho, I wish that I could be there  
Be there, be there  
I wish that I could be there  
Be there, be there  
Then I'd never be alone  
I wish that I could be there  
Then I'd never be alone  
I wish that I could be there  
I could be there  
I wish that I could be there  
I wish that I could be there  
Oh ho I wish that I could be there  
Be there, be there  
I wish that I could be there  
Be there, be there  
I wish that I could be there  
I wish that I could be there
