

Alton Ellis, Lord Deliver Us (with The Heptones)

Let the naked be clothed
Let the blind be led
Let the hungry be fed
And the aged(?) be protected

Lord, deliver us
Lord, deliver us
Lord, deliver us
Coz with all the things that men have learnt
To make things that go around the world
Still can't help us, still can't help us
Still can't help us

Look here now
Children go out to school
Smarter than your father
Don't be a fool
Let the people be led
Take care of them instead

Lord, deliver us
Lord, deliver us
Lord, deliver us
Coz with all the things that men have learnt
To make things that frighten the world
Still can't help us, still can't help us
Still can't help us

Look here now
Children go out to school, yah
Be smarter than your father
Don't be a fool
Let the blind be led
I beg, take care of them instead

Lord, deliver us
Lord, deliver us
Lord, deliver us
