

AlunaGeorge, My Blood (ft. Zhu)

Always someone pulling those strings
Chuck you in and watch you swim
Waiting for that big (...)
See how much your life can bring

You're taking the fall now
You're taking the blame
It's taking you nowhere
Getting you low and crushing your faith
You got to believe me
They don't see love
They're living in hate
And you just don't know
That they just are playing
You're taking the bait

If you want my blood
Join me at the front
If you want my love
You'd better come to see me
You'd better come to see me
You'd better come to see me

Always more to sacrifice
Insatiable appetite
When you look in the mirror
And there's no one that you recognize
Now, that you've been sacrificed
I know that you're looking
Looking for Paradise

You're taking the fall now
You're taking the blame
It's taking you nowhere
Getting you low and crushing your faith
You got to believe me
They don't see love
They're living in hate
And you just don't know
That they just are playing
You're taking the bait

If you want my blood
Join me at the front
If you want my love
You'd better come to see me
You'd better come to see me
You'd better come to see me
