

Always Never, Patterns

I'm not even sure what it is we're after
We've been on it 8 months, 3 days, same pattern
Sorry I'm not fine
Damn near lost my mind

I keep my distance, you call
Whenever liquor's involved
Like we ain't been here before
You know better babe
You know better babe

I keep my distance, you call
Whenever liquor's involved
Like we ain't been here before
You know better babe
You know better babe

It's been a long year
There's changes I've gone through
I don't wanna hear
A word about nothing from you
It's always from you
I got none to lose
Push me I'll prove

I keep my distance, you call
Whenever liquor's involved
Like we ain't been here before
You know better babe
You know better babe

I keep my distance, you call
Whenever liquor's involved
Like we ain't been here before
You know better babe
You know better babe

I keep my distance, you call
Whenever liquor's involved
Like we ain't been here before
You know better babe
You know better babe

I keep my distance, you call
Whenever liquor's involved
Like we ain't been here before
You know better babe
You know better babe

I keep my distance, you call
Whenever liquor's involved
Like we ain't been here before
You know better babe
You know better babe
I can't believe I fucked it up, I was dumb
Now I know

I'm addicted to this jealousy
The fire in my heart is everything
Ashamed cause I'm just as poison as you
It was always the truth, it was always the truth

I'm addicted to this jealousy
The fire in my heart is everything

Ashamed cause I'm just as poison as you
It was always the truth, it was always the truth
