

Aly & AJ, Never Far Behind

I know this really isn't you
I know your heart is somewhere else
And I'll do anything I can
To help you break out of this spell
I see you following your crowd
I know you're trying to fit in
But if you're gonna find yourself
You've gotta start from deep, deep within

Hold on to what you believe

I will always be your friend
I know who you are inside
I am with you to the end
Never far behind
I am standing in the distance
You can take your time
And I will be there waiting
Never far behind

Yeah, never far behind

I am sending you a message
Don't ever think that it's too late
When you care about someone
There is always room for change
You're allowed to make mistakes
It's a part of every life
I don't see you any different
The truth is shining in your eyes

Hold on to what you believe

I will always be your friend
I know who you are inside
I am with you to the end
Never far behind
I am standing in the distance (in the distance)
You can take your time (I will be)
I will be here (waiting)
Never far behind

Yeah, never far behind

You can take your time
And I know (and I know)
From my heart

I will always be your friend
I know who you are inside
I am with you to the end
Never far behind
I am standing in the distance (in the distance)
You can take your time
I will be here waiting
Waiting by my side

God is never far behind

I am sending you a message...
