

Alyson Stoner, Free Spirit

Ooohhh!

There's a spirit that lives inside
You can see it within my smile
Through the rainbow that shines above in the sky
I know I'm not alone
And the moment will see me through
As I watch all my dreams come true
My heart beats with yours and yours beats to mine
Everytime

I just close my eyes and think of you
I'll show the world they'll feel it too

Ref: Here I am

I feel my wings
Oh let my free spirit soar
I reach up high
And break right through
Oohh

I don't see any doors
I have opened my arms to light
I've got everything in my sight
Cause there's nothing that's gonna hold me back tonight
I just close my eyes and think of you
I'll show the world they'll feel it too

Ref: Here I am

I feel my wings
Oh let my free spirit soar
I reach up high
And break right through
Oohh

I don't see any doors
Where have I been
And where am I going
How much of life
Will I get to really get to know
All that I want is to be so free
And to have love
To have love

Ref: Here I am

I feel my wings
Oh let my free spirit soar
I reach up high
And break right through
Oohh

I don't see any doors
My free spirit soar
Yeah!
My free spirit soar
My free spirit soar
