

Am I Blood, Gone With You

I sleep alone tonight
Before I wake I always see
That dream where everything is dark
But I feel I'm tied with chains
It won't let me go
it won't let me wake
Before I've seen that scary thing
Which makes my life like misery

Walk through there's a cradle where you're crying
Laughing crowd with a sound too strange
I've seen it from every side and everytime
I'm losing that same
It could satisfy my hunger
Leave me be
I've gone with you

This waiting hour seems to last like pain
I feel inside
Every morning the same dream makes me
Weak and suffer

Taste me
You'll see when it ends
Before there's something to control me
Won't resist you if you choose to do your own way
But the anger there's left
For longer there will be no rest
I'll drag you down with me

I've Gone With You
Somewhere-Nowhere-Someday

You've seen a poor child begging
He became disposed to anger
So the world raised its hand against ignorant son
And the anger there's left will never fade from this
head
I'll drag you down with me

I've Gone With You
Somewhere-Nowhere-Someday
