

# Am I Blood, Lust

Blood kissing mister in a home-freak story  
Pulls the teeth out of bone flaked arm  
Fucker little beast like boring mother  
Small head inside her room-mate  
For your love if I do this thing to you  
Cold meat eats my liver in raining sun  
Science no loyal deeds hide with me  
Killing people turning outside from themselves  
Mastering eternity I found your bleeding head  
Mastering eternity I found your bleeding head  
From the room of ecstasy  
Crawling deep into the story  
Waiting of my awakening  
Nothing seems to change the way of dream  
You've planned, not to be served  
For all feelings that die to unreal limits can't be alone  
One of the lives you tried to choose  
Was not for sale, again you fail  
Send me an evil from long salvation  
Black stinking blood runs into my mouth  
The cats of pale gray sticking at the bodies  
Mouse with turtle's shields
