Amadeus, Open My Mind

I thought that was easy To control my imagination And to go to any place Where exists mountains And rivers with clean waters But now I know that is difficult That is subject of time I need to open my mind (4x) When I was a young girl And I listened my mother to say That I needed a long time For me to understand this world And always to do the right thing Of the way that has to be It's that I want for me I need to open my mind (4x) When I was a young girl And I listened my mother to say That I needed a long time For me to understand this world And always to do the right thing Of the way that has to be It's that I want for me I need to open my mind (4x)
