

# Amanda, Call Me

You and me, second grade  
Livin' on the same street  
Hangin' out, every day  
Like a brother to me  
I hope you still feel like  
We're meant to be  
Friends for life

If anyone brings you down  
Don't you  
Feel like there's no one around  
Call me

I wanna be the one you turn to  
When you're down  
and you need to talk  
Even in the middle of the night  
You can call me,  
I'll try to make it right  
Even if it's a silly thing  
I will listen and be your friend  
I hope you know that you can always  
count on me

Nowadays, like me  
Got your life and I got mine  
But as soon, as we meet  
We have a great time  
And you could never tell  
Any time has passed at all

I wanna be the one you turn to  
When you're down  
and you need to talk  
Even in the middle of the night  
You can call me,  
I'll try to make it right  
Even if it's a silly thing  
I will listen and be your friend  
I hope you know that you can always  
count on me
