

# Amanda Marshall, This Could Take All Night

Put your car keys down, you'd better stick around  
You're the only one to get this done  
Close and lock the door, Drop down to the floor  
Forget the phone until you see the sun  
Baby it's all right  
Because you know I'll make this fun  
When we see the morning light  
We'll be right back, where we started from  
'Cause this could take all night  
And it's a dirty low down job  
When you do it right  
You can turn it off, you can leave it on  
I don't care about the light  
'Cause this could take all night  
I hope you're in good shape, 'cause you'll be working late  
Don't watch the clock, don't try to stop this time  
Just keep on going strong, work it all night long  
I'll make you glad it's in the stars you're mine  
Baby don't be afraid  
a little work won't hurt your back  
But just in case I'm wrong  
you'll be smiling  
when they pronounce you dead  
Chorus repeat
