

Amanda Somerville, Angel Of Mine

You are everything I need to see
Smile and sunlight makes sunlight to me
Laugh and come and look into me
Drips of moonlight washing over me
Can I show you what want from me
Angel of mine, can I thank you
You have saved me time and time again
Angel, I must confess
It's you that always gives me strength
And I don't know where I'd be without you
After all these years, one thing is true
Constant force within my heart is you
You touch me, I feel I'm moving into you
I treasure every day I spend with you
All the things I am come down to you
Angel of mine
Let me thank you
You have saved me time and time again
Angel, I must confess
It's you that always gives me strength
And I don't know where I'd be without you
Back in the arms of my angel
Back to the peace that I so love
Back in the arms of my angel I can finally rest
Giving you a gift that you remind me
