

Amaranthe, Do Or Die (Feat. Angela Gossow)

Oversee, insanity
Misfortune and apathy
Have to stop, don't live life in denial

Time to end humanity
Apocalypse our remedy
Reap what you sow, death and fire!

Break free, it is time to believe
In the struggle we see, we're the enemy
Retreat, from the battle inside
We can win this fight
Do or die!

What happened to the seasons fallout in the sky
We can only change if we do or die
So justify your reasons, look me in the eye
Right now we just do, we just do or die
Do or die!

What you wish, is what you see
A victim of vanity
Manufacture your own reality
Destruction our legacy
Delusion is haunting me
Still we claim supremacy

Retreat, from the battle inside
No serenity, we're the enemy
Break free, from the genocide
We must change or we will die!

What happened to the seasons fallout in the sky
We can only change if we do or die
So justify your reasons, look me in the eye
Right now we just do, we just do or die
Die die die die
We just do or die
Die die die die

Controlling us
To consume without
Any hesitance for the residents
Of this fading earth

We will die!

What happened to the seasons fallout in the sky
We can only change if we do or die
So justify your reasons, look me in the eye
Right now we just do, we just do or die
Do or die!
