

Amaranthe, Outer Dimensions

Feed me your vibrations
Your spirit over me
Your filled with the sensation
As you revive me
Intercept my darkness
Make my weakness fade away
With you I sense perfection again

Your beautiful deeds
I cannot be deceived

Higher and higher you're taking me
To outer dimensions
Faster and faster
You're bringing me the key to salvation
I wanna fly by your side
To the outer dimensions

As the misery draws closer
You're there to save me from
Delusion and deception
I walk beside you
Wrap yourself around me
And the tremors will abandon me
I'm feeling the sensation again

Your beautiful deeds
I cannot be deceived

Higher and higher you're taking me
To outer dimensions
Faster and faster
You're bringing me the key to salvation
I wanna fly by your side
To the outer dimensions

You're taking me places
I just want to be where you are
One thousand reasons dimensions can't keep us apart

Your beautiful deeds
I cannot be deceived

Higher and higher you're taking me
To outer dimensions
Faster and faster
You're bringing me the key to salvation
I wanna fly by your side
To the outer dimensions
