

Amaranthe, The Catalyst

Hear my call
Rising from the pyre
Unchain me, elation suspire
And hear my cry
Calling out for aid
Redeem me, from deception despair

Am I the vengeance
Your rising insanity
Or the ambition of change?
Artist of rage
Are the tears from another
Shattered reality
Enough to make me ascend?
I venerate

I'm dedicated for a lifetime
Let's fight to find the Catalyst
Never too late to see the sun rise
We stand up for the the sanity
Come and ride with me
The Catalyst

See the storm
The clouds on the horizon
Transfix me, escape I require
Just feel the force
Coursing through the air
Deliverance from the grief I implore

Am I the deathless
And the incorruptible
The incarnation of faith?
Reveal myself
Is your lost independence
A consequence of vanity
The architect of your fate?
I consecrate

I'm dedicated for a lifetime
Let's fight to find the Catalyst
Never too late to see the sun rise
We stand up for the the sanity
Come and ride with me
The Catalyst

Overturn the infestation
Ambition reclaimed
Abdicate the aberration
The false accusations
Modificate the revelation
A martyr proclaimed
Reinvent the definition
Of pure dedication

Am I the deathless
And the incorruptible
The incarnation of faith?
Artist of rage
Is your lost independence
A consequence of vanity
The architect of your fate?
I venerate

I'm dedicated for a lifetime
Let's fight to find the Catalyst
Never too late to see the sun rise
We stand up for the the sanity
Come and ride with me
The Catalyst
