

Amatris, Asteroid (God's Punishment)

A fragile blue planet in space
Unique creation doomed to prey
Stupid mankind in the maze
Step by step to the youngest day

A bright tail in heaven
A clear indication of the end

Mankind is the scourge of earth
Kills the nature, lives in delusion
Without chance of rebirth
Paradise is an illusion

No time to escape
The end comes suddenly
The punishment of God
Mankind begging for mercy

Dust climbs to the sky
And darkens the sun
All life expires in coldness
Ice claps the earth
