

# Amazing Rhythm Aces, I'll Be Gone

You've been sittin' here  
For quite some time  
Puttin' down a lot of scotch  
One eye is winkin' at me  
And another's lookin' at your watch  
Well I don't wanna hear about  
No headache, baby  
As strong as you've been comin' on  
If you don't want me, just say  
Honey, I'll be gone  
Well, baby...well, maybe  
I shouldn't call you baby no more  
You say business like this  
You don't wanna sell me no bacon  
Don't you haul it out the door  
Cause I want you, I need you  
Baby, don't you read me wrong  
If you don't want me, just say  
Honey, I'll be gone  
Well I learned my lesson a long time ago  
When I was back in school  
I treat you like the Queen of Sheba  
But, baby, don't you play me no fool  
Cause I want you, I need you  
Baby, don't you string me along  
If you don't want me, just say  
Honey, I'll be gone  
Ooouu...  
You're lookin' real good tonight, mama  
You've got all your green lights on  
Well, every time I try to talk to you  
It's just like talkin' on the phone  
Well, I need some lovin' from your soul  
It ain't enough that your legs are long  
If you don't want me, just say  
Honey, I'll be gone  
Well, I learned my lesson a long time ago  
When I was just back in school  
I treat you like the Queen of Sheba  
Oh but, baby, don't you play me no fool  
Cause I want you, I need you  
Baby, don't you read me wrong  
If you don't want me, just say  
Honey, I'll be gone  
If you don't want me, just say  
Honey, I'll be gone
