

Amazulu, Excitable (Soca Mix)

You blow so hot, then you blow cold
When I make adjustments to your vertical hold
You hit the roof, then you hit the floor
You keep me dancing 'til my feet get sore

Baby, you're so excitable
I don't care if you get me into trouble
Baby, you're so excitable
Won't you share some excitement with me tonight

I want to stay in, you want to go out
I get nervous when you scream and shout
You blow your top, I'll mend your fuse
You make me offers that I can't refuse

Baby, you're so excitable
I don't care if you get me into trouble
Baby, you're so excitable
I don't want you to change your ways
I'm happy to follow your star
I'll just take you the way that you are

Baby, you're so excitable
I don't care if you get me into trouble
Baby, you're so excitable
I don't want you to change your ways
I'm happy to follow your star
I'll just take you the way that you are

Take a look at the state I'm in
I'm drowning and a-trailing
I hang on 'cause I can't let go
One look at you and I can't say no

Baby, you're so excitable
I don't care if you get me into trouble
Baby, you're so excitable
Won't you share some excitement with me tonight
Baby, you're so excitable
I don't care if you get me into trouble
Baby, you're so excitable
Won't you share some excitement with me tonight

Oh
(Baby, you're so excitable)
Oh, baby
(Baby, you're so excitable)
I need you
Oh, baby
Oh
(Baby, you're so excitable)
Oh, baby
(Baby, you're so excitable)
I need you
Oh, baby.
