

Amber, Above The Clouds

Love lifted us up
Love lifted us up

Remember the pain we put each other through
Remember the tears you've cried, I've cried too
Remember how close we came to giving up
Remember the holidays that were destroyed
Remember the arguments we employed
Remember the lines we drew and the lines we crossed

If we had known it would be so hard
Would we have set out on this road together
Now when I look into your eyes I can see forever

Chorus:
We're flying above the clouds
So beautiful & clear
We're flying above the clouds
I can see happiness from here

Love lifted us up
Love lifted us up

Remember the silence hiding in the dark
Remember the desperation in our hearts
Remember how close we came to giving up

We were caught up in a storm
I didn't think that we would make it
We held on, we stood our ground
Now the storm is breaking

Chorus

Sweet love
To a higher ground
Love lifted us up
Love lifted us up

If we had known it would be so hard
Would we have set out on this road together
Now when I look into your eyes I can see forever

Chorus 2x

We're flying so beautiful
Love lifts us up
There is so much happiness
Don't ever stop
