

Amber, Colour Of Love (Mousset T Remix)

Show me the colour of love
Somehow it seems like a sign from above
Get closer
Love is all we need
The colour of love

I have been watching you all night
I know you can feel it too
I'm trembling inside
I love you

Back in time we met
Those days we had I'll never forget
I can't live without you

A love so true

Show me the colour..

True love is what you've given me
I'll be there if you feel the same
You're the one I see
There's no shame

Back in time...
Show me the colour..
Back in time...
Show me the colour..
